

roll covers for the paper converting industry

Machine position	Compound	Hardness	Features
Embossing backing rolls	125P12 Rubber	55 ShA	<ul style="list-style-type: none"> • excellent resilience properties and long service lives designed for micro and scenography stamping • excellent abrasion resistance • excellent resistance to oil, grease and fuels • cover colour: blue
Married rolls	30P41 Rubber	90 ShA	<ul style="list-style-type: none"> • excellent resistance to oil, grease and fuels • excellent abrasion resistance • cover colour: black
	6P2/30P41 Rubber, dual layer	90 ShA (top layer)	<ul style="list-style-type: none"> • dual layer cover; excellent absorption of oscillation and less heating-up due to a more flexible bottom layer • cover colour: black
Size applicator rolls Paint immersion rolls	7P2 Rubber	70 ShA	<ul style="list-style-type: none"> • excellent abrasion resistance • excellent resistance to water based sizes and detergents • cover colour: black

These overviews are supposed to give a general idea of what we provide. Different hardness rates are available on application. Surface design/finish, elasticity and functional properties can be designed to any special requirements.
